

- » **Medilink International** is committed to the continual improvement within our Information Security system and to comply with the requirements of **ISO 27001:2022** for the Provision of Clinics Management, Medical Support Services, Occupational Health Services, Medical Staffing and Management of Clinical Records and Client Data.
- » Our intent is to provide the highest standard for **Information Security** relating to all data and information pertaining all stakeholders within the organization.
- » We are committed to satisfy all applicable requirements relating to the Information **Security Management System** and have the mechanisms and structures in place to continually evaluate the **Management System** to seek areas for continual improvement.
- » **Medilink International** has implemented the policies and procedures to **effectively evaluate the risks** relevant for its Information Security Management System. Moreover, we are committed to take the actions required to apply the treatments mentioned in Annex A of the ISO 27001:2022 standard.
- » We recognize that the **Information Security** of our services depends on the everyday actions of those in working within the teams at Medilink International. We are all committed to communicate with all stakeholders their roles within the company's management system, and to **developing our personnel's skills** through training and mentoring in both their professional and vocational interests.
